| Sommario/riassunto      | Signs of Hope tells the story of a narrative inquiry with three deaf/hearing families. For many of us, deafness represents loss and silence. For others, being deaf is a genetic quirk; an opportunity for learning, spiritual adventure and reward. For yet others, it is the most natural thing in the world; a connection to a genealogical layer of signing ancestors and the continuation of a culture. Amid the noise of mainstream, medical and educational discourses of deafness, here are family voices ... |

| Sommario/riassunto      | <p>Written by internationally acclaimed specialists, Cardio-Thoracic, Vascular, Renal and Transplant Surgery provides pertinent and concise procedure descriptions spanning benign and malignant problems and minimally invasive procedures. Complications are reviewed when appropriate for the organ system and problem, creating a book that is both comprehensive and accessible. Stages of operative approaches with relevant technical considerations are outlined in an easily understandable manner. Forming part of the series, Surgery: Complications, Risks and Consequences, this volume Cardio-Thoracic, Vascular, Renal and Transplant Surgery provides a valuable resource for</p> |

all general surgeons and residents in training. Other healthcare providers will also find this a useful resource.
