| Sommario/riassunto | The 7th European Conference on Case-Based Reasoning (ECCBR 2004) was held from August 30 through September 2, at the Complutense University of Madrid, Spain. ECCBR was born in Aberdeen, UK (2002), after a series of European workshops held in Trento,Italy(2000),Dublin, Ireland(1998),Lausanne, Switzerland (1996), Paris, France (1994), and Kaiserslautern, Germany (1993). ECCBR is the premier international forum for researchers and practitioners of case-based reasoning (CBR) in the years interleaving with the biennial international counterpart ICCBR, whose 5th edition was held in Trondheim, Norway in 2003. The CBR community has shown for years a deep interest in the application of its research to real-world problems. As a result, the first day of both ECCBR and ICCBR has been traditionally dedicated to presenting industrial CBR complications. ECCBR 2004 Industry Day was co-chaired |

by Mehmet Göker and Francisco Martín who invited professionals from different fields to describe their fielded CBR systems. The second day of the conference was dedicated to four workshops focusing on the following research interests: CBR in health sciences, explanation in CBR, computational creativity, and CBR applied to time series prediction. We are grateful to the Workshop Program co-chairs, Pablo Gervás and Kalyan Moy Gupta, for their efforts in coordinating these workshops, along with the individual workshop chairs and participants. Materials from the Ind- try Day and the workshops were published separately and can be obtained from the ECCBR 2004 website, http: //www. idt. mdh. se/eccbr/.

Language norms and standardization in a view form below -- Surinamese Dutch: The development of a unique Germanic Language variety / KLEINE, CHRISTA DE -- "Zoo schrijve ek lievers my sort Afrikaans" - Speaker agency, identity, and resistance in the history of Afrikaans / DEUMERT, ANA -- "Deutsch ist eine würde-lose Sprache". On the history of a failed prescription / DURRELL, MARTIN -- To boldly split the infinitive - or not? Prescriptive traditions and current English usage / FISCHER, ROSWITHA -- Norm consciousness and corpus constitution in the study of Earlier Modern Germanic Languages / POUNDER, AMANDA -- Variability and professionalism as prerequisites of standardization / VOESTE, ANJA -- Putting standard German to the test: some notes on the linguistic competence of grammarschool students and teachers in the nineteenth century / ZIEGLER, EVELYN -- IV. Language choice and language planning -- The choice between German and French for the German nobility of the late 18th century / ARZBERGER, STEFFEN -- Flirting at the fringe - The status of the German varieties as perceived by language activists in Belgium's Areler Land / DARQUENNES, JEROEN -- Language and Luxembourgish national identity: ideologies of hybridity and purity in the past and present / HORNER, KRISTINE -- The planning of modern Norwegian as a sociolinguistic experiment - 'from below' / JAHR, ERNST HÅKON -- The death of Standard German in 19th-century Budapest. A case study on the role of linguistic ideologies in language shift / MAITZ, PÉTER -- 1750-1850: The disappearance of German from Bergen, Norway / NESSE, AGNETE -- Societal multilingualism and language conflicts in Galicia in the 19th century / PTASHNYK, STEFANIYA -- New data on language policy and language choice in 19th-century Flemish city administrations / VANHECKE, ELINE / DE GROOF, JETJE -- V. Reflections on alternative language histories -- Communicative genres as categories in a socio-cultural history of communication / LINKE, ANGELIKA -- Deconstructing episodes in the 'history of English' / WATTS, RICHARD J. -- Index

Sommario/riassunto	Focusing on the sociolinguistic history of Germanic languages, the current volume challenges the traditional teleological approach of language historiography. The 30 contributions present alternative histories of ten 'big' as well as 'small' Germanic languages and varieties in the last 300 years. Topics covered in this book include language variation and change and the politics of language contact and choice,

seen against the background of standardization processes of written and oral text genres and from the viewpoint of larger sections of the population.

Sommario/riassunto	This is the number-one successful book on solid phase organic synthesis, now in its second, expanded edition. It offers the reader; a comprehensive overview of supports, spacers, and linkers; 15 per cent more contents; everything there is to know about reactions and their applications; - clear structure; numerous experimental guidelines for use in practice; The ideal reference for newcomers and experts.; "... I have no doubts that this text will be the benchmark for future publications on the subject, and a very hard act to follow for authors planning books of their own on this red hot topic.
