

1. Record Nr.	UNINA9910788570103321
Autore	Lazareff Jorge A
Titolo	Neural tube defects // Jorge A. Lazareff
Pubbl/distr/stampa	Singapore ; ; Hackensack, N.J. : , : World Scientific Pub. Co., , 2011 ©2011
ISBN	1-283-14373-9 9786613143730 981-4273-85-6
Descrizione fisica	1 online resource (viii, 283 pages) : illustrations
Disciplina	618.92/80443
Soggetti	Neural tube - Abnormalities
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Spinal defects -- pt. 2. Cranial defects.
Sommario/riassunto	Neural Tube Defects are a group of related but individual pathologies that are the most common congenital anomalies of the Central Nervous System. The importance of this condition has generated a large body of literature that seldom was written for the clinician in a comprehensive and didactic manner. In this book, each chapter is richly illustrated and dedicated to one disease with subheadings that encompass etiology, molecular biology, clinical anatomy, symptoms, rationale for surgical procedures, natural history and transition into adulthood.
