Sommario/riassunto	This book offers a survey of current work in Nordic and General Linguistics, with a special focus on language contact. The papers in this book were presented at the 11th International Conference of Nordic and General Linguistics (ICNGL) in Freiburg. The ICNGL conference series aims to facilitate the exchange of ideas on Scandinavian and other languages, between researchers from the Nordic countries and elsewhere. The present volume focuses on language contact, which has always been a topic of great interest in Nordic Linguistics. Additionally, the contributions in this book address issues of phonology, morpho-syntax, syntax, and grammaticalization. The book is meant to be a snapshot of Nordic Linguistics as it is practiced today, reflecting at the same time its established research traditions as well as its forages into new methodologies and theories.
