

1. Record Nr.	UNINA9910788825003321
Autore	Popescu Ioan-Iovitz
Titolo	Quantitative analysis of poetic texts // Ioan-Iovitz Popescu [and three others]
Pubbl/distr/stampa	Berlin, Germany ; ; Boston, Massachusetts : , : De Gruyter Mouton, , 2015 ©2015
ISBN	3-11-039479-0 3-11-036379-8
Descrizione fisica	1 online resource (288 p.)
Collana	Quantitative Linguistics, , 0179-3616 ; ; Volume 67
Classificazione	EC 1640
Disciplina	859/.12
Soggetti	Romanian literature - Statistical methods Romanian literature - Data processing
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Front matter -- Foreword -- Contents -- 1. Introduction -- 2. Phonic phenomena -- 3. The word -- 4. The control cycle -- References -- Index
Sommario/riassunto	The book presents methods for the objective analysis of poetic language. Common objects of literary studies such as rhythm, semantic explications, interpretation and personal impressions are avoided. Only those properties of poetic texts are taken into account that could be quantified. The major chapters contain the analysis of phonic phenomena (frequency, euphony, assonance, alliteration, aggregation, rhyme), word properties (aspects of frequency, length, richness, word classes, sequences of word properties, characterisations). The synergetic control cycle is the result of the study of mutual links between properties. For all methods both statistical tests (evaluation, comparison), theoretical derivations (models), and examples are presented. The book is dedicated to the work of the famous Romanian poet Mihai Eminescu whose complete work was analysed, which made detailed illustrations of the method possible. The methods can be used mutatis mutandis for any language and text. It is the first comprehensive quantitative analysis of a poetic work.
