1. Record Nr.   UNINA9910788866103321

   Autore   Gangbo Wilfrid

   Titolo   Differential forms on Wasserstein space and infinite-dimensional
                    Hamiltonian systems / / Wilfrid Gangbo, Hwa Kil Kim, Tommaso Pacini

   Pubbl/distr/stampa Providence, Rhode Island : , : American Mathematical Society, , 2010
                       ©2010

   ISBN   1-4704-0610-1

   Descrizione fisica 1 online resource (77 p.)

   Collana   Memoirs of the American Mathematical Society, , 0065-9266 ; ; Volume
                    211, Number 993

   Disciplina   515/.39

   Soggetti   Differential forms
                    Hamiltonian systems
                    Infinite-dimensional manifolds

   Lingua di pubblicazione Inglese

   Formato   Materiale a stampa

   Livello bibliografico Monografia

   Note generali   "Volume 211, Number 993 (third of 5 numbers)."

   Nota di bibliografia Includes bibliographical references.

   Nota di contenuto ""Contents""; ""Abstract""; ""Chapter 1. Introduction""; ""Chapter 2. The
                    topology on M and a differential calculus of curves""; ""2.1. The space
                    of distributions""; ""2.2. The topology on M""; ""2.3. Tangent spaces and
                    the divergence operator""; ""2.4. Analytic justification for the tangent
                    spaces""; ""Chapter 3. The calculus of curves, revisited""; ""3.1.
                    Embedding the geometry of RD into M""; ""3.2. The intrinsic geometry
                    of M""; ""3.3. Embedding the geometry of M into (Cc)*""; ""3.4. Further
                    comments""; ""Chapter 4. Tangent and cotangent bundles""
                    ""4.1. Push-forward operations on M and TM""""4.2. Differential forms
                    on M""; ""4.3. Discussion""; ""Chapter 5. Calculus of pseudo differential
                    1-forms""; ""5.1. Green's formula for smooth surfaces and 1-forms"";
                    ""5.2. Regularity and differentiability of pseudo 1-forms""; ""5.3.
                    Regular forms and absolutely continuous curves""; ""5.4. Green's
                    formula for annuli""; ""5.5. Example: 1-forms on the space of discrete
                    measures""; ""5.6. Discussion""; ""Chapter 6. A symplectic foliation of
                    M""; ""6.1. The group of Hamiltonian diffeomorphisms""; ""6.2. A
                    symplectic foliation of M""
                    ""6.3. Algebraic properties of the symplectic distribution""""Chapter 7.
                    The symplectic foliation as a Poisson structure""; ""7.1. Review of
                    Poisson geometry""; ""7.2. The symplectic foliation of M, revisited"";
