   Sommario/riassunto   There are few people who have not heard of the Irish software success
                     story. Once a country whose primary industries were agriculture and
                     manufacturing, Ireland has become a focal point for many multinational
                     corporations setting up major offshore software bases. There has also
                     been strong growth in the indigenous software sector. However, the
                     Irish software industry is facing some new challenges. Low-cost
                     countries are investing in the growth of their software industry. And,
                     with this i...
