

1. Record Nr.	UNINA9910789024703321
Titolo	Principles and practice of lasers in Otorhinolaryngology and head and neck surgery . Volume 1 // edited by V. Oswal, M. Remacle ; co-editors, S. Jovanovic, S. Zeitels, J. Krespi
Pubbl/distr/stampa	Amsterdam, The Netherlands : , : Kugler Publications, , [2014] ©2014
ISBN	90-6299-865-8
Edizione	[Second enlarged edition.]
Descrizione fisica	1 online resource (951 p.)
Altri autori (Persone)	OswalV RemacleM JovanovicS ZeitelsS KrespiJ
Disciplina	617.5 617.5/1059
Soggetti	Lasers in surgery Neck - Laser surgery Neck
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	section I. Basic laser science -- section II. Transoral Laser laryngeal surgery -- section III. Lasers in endonasal surgery -- section IV. Lasers in otology -- section V. Oropharyngeal and head & neck surgery -- section VII. Snoring and sleep apnoea -- section VIII. Lasers in lower airways -- section IX. Lasers in chronic tropical inflammatory diseases in otolaryngology -- section X. Emerging trends in laser applications -- section XI. Future developments in laser applications -- section XII. Appendices.
Sommario/riassunto	ForewordIn this era's informational paradigm, while pondering the considerations to be penned in this foreword, the relevance of a text such as this emerged progressively as the focal point. After all, for years, one established source for accessing large amounts of valuable information had been the Encyclopaedia Britannica, a printed tome,

which is no longer relevant. Instant access to the latest scientific information is freely available to all with an internet. So, what can this text provide that cannot be readily accessed? In contemplating given topics, the Editors, as most certainly occur
