Sommario/riassunto	The ten countries in the ASEAN region account for approximately 5% of world gross domestic product and 8% of world population and represent the most diverse group of nations in terms of the level of prosperity, political system, culture, language, and history. This

diversity in ASEAN not only helps us understand the notion of national competitiveness, but also provides important policy lessons for both developed and developing countries. This book - a collection of essays - provides insights on competitiveness challenges and policies. It provides an excellent overview of competitiveness for a
