

1. Record Nr.	UNINA9910789130403321
Autore	Attanoos Richard L
Titolo	Advances in surgical pathology Mesothelioma // Richard L. Attanoos, Timothy Craig Allen
Pubbl/distr/stampa	Philadelphia : , : Wolters Kluwer Health / Lippincott Williams & Wilkins, , [2014] 2014
ISBN	1-4511-5384-8 1-4698-7988-3
Edizione	[First edition.]
Descrizione fisica	1 online resource (xiv, 188 pages) : illustrations (chiefly color)
Collana	Advances in surgical pathology series Gale eBooks
Disciplina	616.99/424
Soggetti	Mesothelioma Cancer - Pathophysiology Cancer - Treatment Cancer - Surgery Pathology, Surgical
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	section I. Epidemiologic, clinical, and radiologic features -- section II. Histopathology -- section III. Molecular features.
Sommario/riassunto	"This volume of the Advances in Surgical Pathology Series is a concise, updated review of the pathological characteristics of mesothelioma. It emphasizes the histologic correlation, clinical management, and treatment of mesothelioma. It features current and emerging concepts in the field, which includes recognition of precursor mesothelial lesions, the role of molecular biology in the diagnosis and prognosis of mesothelioma, the interface between the clinician and the surgical pathologist, and the legal implications in relation to disease attributibility to asbestos and other factors. The book provides a resource for the timely updates in knowledge that are necessary for daily practice, for current credentialing, and for the self-assessment modules for recertification (MOC)."--Provided by publisher.
