Sommario/riassunto

Preface It was indeed a great pleasure and honor for me to have hosted the 9th International Conference on Cholesteatoma and Ear Surgery in Nagasaki, Japan. There were 558 participants; four full-day programs

provided them with rich scientific programs including six keynote lectures, seven symposia, 26 panel discussions, 12 mini lectures on recent topics, 23 instruction courses, two live cadaver temporal-bone dissections, three sponsored sessions, three other sessions, and three days of temporal-bone dissection courses. I would like to take this opportunity to express my greatest gratitude to a
