

1. Record Nr.	UNINA9910789157603321
Autore	Kini Sudha R
Titolo	Cytopathology of neuroendocrine neoplasia : color atlas and text // Sudha R. Kini
Pubbl/distr/stampa	Philadelphia : , : Wolters Kluwer Health / Lippincott Williams & Wilkins, , [2013] 2013
ISBN	1-4698-2597-X 1-4698-7978-6
Descrizione fisica	1 online resource (xii, 399 pages) : illustrations (chiefly color)
Collana	Gale eBooks
Disciplina	616.99/407582
Soggetti	Cyodiagnosis Neuroendocrine tumors
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Types of cytologic specimens and cytopreparations -- Pulmonary neuroendocrine tumors -- Neuroendocrine tumors of the gastro-intestinal tract, appendix, biliary tract, and gall bladder -- Pancreatic neuroendocrine tumors -- Neuroendocrine tumors of the mediastinum -- Neuroendocrine tumors of the salivary glands -- Neuroendocrine tumors of the thyroid -- Parathyroid glands -- Pituitary neoplasms -- Cutaneous neuroendocrine carcinoma/merkel cell carcinoma -- Neuroendocrine tumors of the genito-urinary tract -- Miscellaneous neuroendocrine tumors of the epithelial type -- Adrenal medulla and pheochromocytoma -- Extraadrenal paragangliomas -- Primitive neuroectodermal neoplasms in pediatric age group and adolescents -- Miscellaneous neuroendocrine tumors of the neural type. section I. Epithelial type neuroendocrine tumors -- section II. Neural type neuroendocrine tumors.
Sommario/riassunto	This atlas provides descriptive information on the cytopathology of neuroendocrine tumor types and differential diagnoses. It addresses the wide distribution of the neuroendocrine cells in the body and provides detailed descriptions of the morphologic spectrum of the neoplasms (including different terminologies), and their immunocytochemical properties, associated ultrastructural

findings, secretory products, and their association with many hereditary syndromes.
