Sommario/riassunto	"In Victorian Reformations: Historical Fiction and Religious Controversy, 1820-1900, Miriam Elizabeth Burstein analyzes the ways in which Christian novelists across the denominational spectrum laid claim to popular genres--most importantly, the religious historical novel--to narrate the aftershocks of 1829, the year of Catholic Emancipation. Both Protestant and Catholic popular novelists fought over the ramifications of nineteenth-century Catholic toleration for the legacy of the Reformation. But despite the vast textual range of this genre, it remains virtually unknown in literary studies. Victorian Reformations is the first book to analyze how "high" theological and historical debates over the Reformation's significance were popularized through the

increasingly profitable venue of Victorian religious fiction. By putting religious apologists and controversialists at center stage, Burstein insists that such fiction--frequently dismissed as overly simplistic or didactic--is essential for our understanding of Victorian popular theology, history, and historical novels. Burstein reads "lost" but once exceptionally popular religious novels--for example, by Elizabeth Rundle Charles, Lady Georgiana Fullerton, and Emily Sarah Holt--against the works of such now-canonical figures as Sir Walter Scott, Charles Dickens, and George Eliot, while also drawing on material from contemporary sermons, histories, and periodicals. Burstein demonstrates how these novels, which popularized Christian visions of change for a mass readership, call into question our assumptions about the nineteenth-century historical novel. In addition, her research and her conceptual frameworks have the potential to influence broader paradigms in Victorian studies and novel criticism. "In Victorian Reformations, Miriam Elizabeth Burstein persuasively shows how non-canonical Victorian historical novels offer essential insights into the shaping and importance of Victorian religious debates. Informative and well-argued, her book is a significant work for those who are interested in Victorian literature and Victorian religion, as well as the intersection of the two."--Carol Engelhardt Herringer, Wright State University"--

Sommario/riassunto	Die duale Berufsausbildung gilt als Garant für einen reibungslosen Einstieg ins Erwerbsleben. Aber nicht bei allen Absolventen einer dualen Berufsausbildung gelingt dieser Einstieg erfolgreich. Bereits zu Beginn des Berufslebens sind Unterschiede zu erkennen, die den weiteren Erwerbsverlauf beeinflussen. Deshalb ist es notwendig, die Ursachen der Arbeitslosigkeit nach der dualen Berufsausbildung zu identifizieren. Daran setzt diese Arbeit an. Der Fokus der theoretischen und empirischen Untersuchung liegt auf der Bestimmung der Wahrscheinlichkeit des Eintritts in die Arbeitslosigkeit. Grundlage bildet hier die unterschiedliche Ausbildungsbereitschaft der Betriebe. Die Einflussfaktoren auf die Wahrscheinlichkeit und auf die Länge der Arbeitslosigkeit werden ökonometrisch überprüft.
