

1. Record Nr.	UNINA9910455014203321
Autore	Roof Wade Clark
Titolo	Spiritual marketplace [[electronic resource]] : baby boomers and the remaking of American religion / / Wade Clark Roof
Pubbl/distr/stampa	Princeton, N.J., : Princeton University Press, c1999
ISBN	1-4008-1776-5 1-4008-2308-0 9786612457876 1-282-45787-X 1-4008-1317-4
Edizione	[Core Textbook]
Descrizione fisica	1 online resource (378 p.)
Disciplina	200/.973/09045
Soggetti	Baby boom generation Baby boom generation - Religious life Electronic books. United States Religion 1960-
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 325-360) and index.
Nota di contenuto	Front matter -- Contents -- Acknowledgments -- INTRODUCTION. On Maps and Terrains -- CHAPTER 1. Varieties of Spiritual Quest -- CHAPTER 2. The Making of a Quest Culture -- CHAPTER 3. Spiritual Marketplace -- CHAPTER 4. On Being Fluid and Grounded -- CHAPTER 5. A Quest for What? -- CHAPTER 6. Redrawing the Boundaries -- CHAPTER 7. Realigning Family and Religion -- CHAPTER 8.2 Moral Vision and Values -- CONCLUSION "Whirl Is King, Having Driven Out Zeus" -- APPENDIX. 3Methodology -- Notes -- Index
Sommario/riassunto	In large chain bookstores the "religion" section is gone and in its place is an expanding number of topics including angels, Sufism, journey, recovery, meditation, magic, inspiration, Judaica, astrology, gurus, Bible, prophesy, evangelicalism, Mary, Buddhism, Catholicism, and esoterica. As Wade Clark Roof notes, such changes over the last two decades reflect a shift away from religion as traditionally understood to more diverse and creative approaches. But what does this splintering of the religious perspective say about Americans? Have we become more

interested in spiritual concerns or have we become lost among trends? Do we value personal spirituality over traditional religion and no longer see ourselves united in a larger community of faith? Roof first credited this religious diversity to the baby boomers in his bestselling *A Generation of Seekers* (1993). He returns to interview many of these people, now in mid-life, to reveal a generation with a unique set of spiritual values--a generation that has altered our historic interpretations of religious beliefs, practices, and symbols, and perhaps even our understanding of the sacred itself. The quest culture created by the baby boomers has generated a "marketplace" of new spiritual beliefs and practices and of revisited traditions. As Roof shows, some Americans are exploring faiths and spiritual disciplines for the first time; others are rediscovering their lost traditions; others are drawn to small groups and alternative communities; and still others create their own mix of values and metaphysical beliefs. *Spiritual Marketplace* charts the emergence of five subcultures: dogmatists, born-again Christians, mainstream believers, metaphysical believers and seekers, and secularists. Drawing on surveys and in-depth interviews for over a decade, Roof reports on the religious and spiritual styles, family patterns, and moral vision and values for each of these subcultures. The result is an innovative, engaging approach to understanding how religious life is being reshaped as we move into the next century.

2. Record Nr.	UNINA9910789204603321
<b>Titolo</b>	Chemistry and Technology of Epoxy Resins [[electronic resource] /] / edited by Bryan Ellis
<b>Pubbl/distr/stampa</b>	Dordrecht : , : Springer Netherlands : , : Imprint : Springer, , 1993
<b>ISBN</b>	94-011-2932-0
<b>Edizione</b>	[1st ed.]
<b>Descrizione fisica</b>	1 online resource (XII, 332 p.)
<b>Disciplina</b>	500
<b>Soggetti</b>	Science Science, general
<b>Lingua di pubblicazione</b>	Inglese
<b>Formato</b>	Materiale a stampa
<b>Livello bibliografico</b>	Monografia
<b>Nota di bibliografia</b>	Includes bibliographical references and indexes.
<b>Nota di contenuto</b>	1 Introduction to the chemistry, synthesis, manufacture and characterization of epoxy resins -- 2 Curing agents for epoxy resins -- 3 The kinetics of cure and network formation -- 4 Additives and modifiers for epoxy resins -- 5 Fracture behaviour of epoxy resins -- 6 Electrical properties of epoxy resins -- 7 Epoxy resin adhesives -- 8 Composite materials -- 9 Coatings and other applications of epoxy resins.
<b>Sommario/riassunto</b>	Epoxy resins have been commercially available for about 45 years and now have many major industrial applications, especially where technical advantages warrant their somewhat higher costs. The chemistry of these resins is fascinating and has attracted study by many very able scientists. The technological applications of the epoxy resins are very demanding and there are many new developments each year. The aims of the present book are to present in a compact form both theoretical and practical information that will assist in the study, research and innovations in the field of epoxy resin science and technology. The literature on epoxy resins is so vast that it is not possible to be encyclopaedic and that is not the function of the present text. It is the editor's hope that the selection of topics discussed will provide an up-to-date survey. There is some overlap in the chapters but this is minimal and so each chapter is essentially self contained. As with all chemicals there are toxicological and other hazards. These are not dealt with in this text since a little knowledge can be dangerous, but

material supplied can provide information regarding any safety precautions that may be necessary. However, often these precautions are not onerous and epoxy resins, or more specifically the hardeners, can be handled readily. It is hoped that this text will provide an up-to-date outline of the science and technology of epoxy resins and stimulate further research into unsolved problems and assist further technological developments.
