

1. Record Nr.	UNINA9910789231203321
Titolo	Nationwide response issues after an improvised nuclear device attack : medical and public health considerations for neighboring jurisdictions : workshop summary // Forum on Medical and Public Health Preparedness for Catastrophic Events, Board on Health Sciences Policy ; Miriam Davis, Megan Reeve, and Bruce M. Altevogt, rapporteurs ; Institute of Medicine of the National Academies
Pubbl/distr/stampa	Washington, District of Columbia : , : National Academies Press, , [2014] ©2014
ISBN	0-309-28604-2 0-309-28602-6
Descrizione fisica	1 online resource (256 p.)
Disciplina	363.325580973
Soggetti	Radiation injuries - United States Emergency medical services - United States Emergency management - United States Disaster medicine - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	""Front Matter""; ""Reviewers""; ""Contents""; ""1 Introduction""; ""2 Public Health and Logistical Considerations""; ""3 Federal Programs and Perspectives""; ""4 Local, State, and Regional Perspectives and Programs""; ""5 Challenges to Command and Control""; ""6 Risk Communication and Education""; ""7 Monitoring and Mass Care in Outlying Communities""; ""8 Reorienting and Augmenting Professional Approaches""; ""9 Roles of Regional Health Care Coalitions in Planning and Response""; ""Appendix A: References""; ""Appendix B: Abbreviations and Acronyms""; ""Appendix C: Workshop Agenda"" ""Appendix D: Biographical Sketches of Speakers and Panelists"" ""Appendix E: Resource List""; ""Appendix F: List of Speakers and Registered Attendees""; ""Appendix G: Day 30: The Impact of Mass Evacuations on Host Communities Following Nuclear Terrorism"";

""Appendix H: Implications of an Improvised Nuclear Device Detonation on Command and Control for Surrounding Regions at the Local, State, and Federal Levels""; ""Appendix I: Role of Regional Health Care Coalitions in Managing and Coordinating Disaster Response""

Sommario/riassunto

The focus of Nationwide Response Issues After an Improvised Nuclear Device Attack: Medical and Public Health Considerations for Neighboring Jurisdictions: Workshop Summary is on key response requirements faced by public health and health care systems in response to an IND detonation, especially those planning needs of outlying state and local jurisdictions from the detonation site. The specific meeting objectives were as follows: understand the differences between types of radiation incidents and implications of an IND attack on outlying communities; highlight current planning efforts at the federal, state, and local level as well as challenges to the implementation of operational plans; examine gaps in planning efforts and possible challenges and solutions; identify considerations for public health reception centers: how public health and health care interface with functions and staffing and how radiological assessments and triage be handled; discuss the possibilities and benefits of integration of disaster transport systems; and explore roles of regional health care coalitions in coordination of health care response.--
