Sommario/riassunto

"Are you looking for concise, practical answers to those questions that are often left unanswered by traditional pediatric ophthalmology references? Are you seeking brief, evidence-based advice for complicated cases or controversial decisions? Curbside Consultation in Pediatric Ophthalmology: 49 Clinical Questions provides quick answers to the tricky questions most commonly posed during a "curbside consultation" between pediatricians. Dr. Rudolph Wagner has designed this unique reference which offers expert advice, preferences, and opinions on tough clinical questions commonly associated with pediatric ophthalmology. The unique Q&A format provides quick access to current information related to pediatric ophthalmology with the simplicity of a conversation between two colleagues. Numerous images, diagrams, and references allow readers to browse large amounts of information in an expedited fashion. Curbside Consultation in Pediatric Ophthalmology: 49 Clinical Questions provides information basic enough for residents while also incorporating expert advice that even high-volume pediatricians will appreciate. Pediatricians, nurse practitioners, emergency room physicians, physician assistants and family practitioners will benefit from the user-friendly, casual format and the expert advice contained within"--
