ISBN	9788599662991
Descrizione fisica	1 online resource (87 pages) : digital, PDF file(s)
Collana	Biblioteca Virtual de Ciencias Humanas
Soggetti	Labor unions - Brazil Labor - Brazil Labor unions Working class - Brazil
Lingua di pubblicazione	Portoghese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	We would not be able to systematically appreciate the complexity of union and worker situations in different countries. Here we are only interested in trying to isolate the main factors related to the formation of European capitalism and which seem significant for the analysis of the workers' forms of action and ideology.

Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Front matter -- Contents -- Introduction. Histories of Victimhood: Assemblages, Transactions, and Figures -- Chapter 1. Why Social Scientists Should Care How Jesus Died -- Chapter 2. Bodies of Partition: Of Widows, Residue, and Other Historical Waste -- Chapter 3. "Extremely Poor" Mothers and Debit Cards: The Families in an Action Cash-Transfer Program in Colombia -- Chapter 4. How to Become a Victim: Pragmatics of the Admission of Women in a South African Primary Health Care Clinic -- Chapter 5. Negotiating Victimhood in Nkomazi, South Africa -- Chapter 6. Between Recognition and Care: Victims, NGOs and the State in the Guatemalan Postconflict Victimhood Assemblage -- Chapter 7. Recognizing Torture: Credibility and the Unstable Codification of Victimhood -- Chapter 8. The Power of Dead Bodies -- Chapter 9. Why Is Muna Crying? Event, Relation, and Immediacy as Criteria for Acknowledging Suffering in Palestine -- Chapter 10. Departures of Decolonization: Interstitial Spaces, Ordinary Affect, and Landscapes of Victimhood in Southern Africa -- Chapter 11. Performances of Victimhood, Allegation, and Disavowal in Sierra Leone -- Chapter 12. Victims in the Moral Economy of Suffering: Narratives of Humiliation, Retaliation, and Sacrifice -- Epilogue. Histories of Victimhood: Assemblage, Transaction, and Figure -- Contributors --

The word and concept of victim bear a heavy weight. To represent oneself or to be represented as a victim is often a first and vital step toward having one's suffering and one's claims to rights socially and legally recognized. Yet to name oneself or be called a victim is a risky claim, and social scientists must struggle to avoid erasing either survivors' experience of suffering or their agency and resourcefulness. *Histories of Victimhood* engages with this dilemma, asking how one may recognize and acknowledge suffering without essentializing affected communities and individuals. This volume tackles the theoretical and empirical questions surrounding the ways victims and victimhood are constructed, represented, and managed by state and nonstate actors. Geographically broad, the twelve essays in this volume trace histories of victimhood in Colombia, India, South Africa, Guatemala, Angola, Sierra Leone, Turkey, Occupied Palestine, Denmark, and Britain. They examine the implications of victimhood in a wide range of contexts, including violent occupations, displacement, war, reparation projects, refugee assistance, HIV treatment, trauma intervention, social welfare projects, and state formation. In exploring varying forms of hardship and identifying what people do to survive, how they make sense of their own suffering, and how they are frequently either acted upon or ignored by humanitarian agencies and states, *Histories of Victimhood* encourages us to see victimhood not as a definite and definable category of experience but as a changeable and culturally contingent state. Contributors: Sofie Danneskiold-Samsøe, Pamila Gupta, Ravinder Kaur, Stine Finne Jakobsen, Andrew M. Jefferson, Steffen Jensen, Tobias Kelly, Frédéric Le Marcis, Walter Paniagua, Elizabeth A. Povinelli, Darius Rejali, Henrik Ronsbo, Lotte Buch Segal, Nerina Weiss.

Sommario/riassunto	The Theory of the Top. Volume IV. Technical Applications of the Theory of the Top is the fourth and final volume in a series of self-contained English translations of the classic and definitive treatment of rigid body motion. Key features: * Complete and unabridged presentation with recent advances and additional notes; * Annotations by the translators provide insights into the nature of science and mathematics in the late 19th century; * Each volume interweaves theory and applications. The Theory of the Top was originally presented by Felix Klein as an 1895 lecture at Göttingen University that was broadened in scope and clarified as a result of collaboration with Arnold Sommerfeld. Graduate students and researchers interested in theoretical and applied

mechanics will find this series of books a thorough and insightful account. Other volumes in the series include Introduction to the Kinematics and Kinetics of the Top, Development of the Theory in the Case of the Heavy Symmetric Top, and Perturbations. Astronomical and Geophysical Applications.
