1.	Record Nr.	UNINA9910789307003321
	Titolo	Modern trends in constructive function theory [[electronic resource]] : conference in honor of Ed Saff's 70th birthday : constructive functions 2014, May 26-30, 2014, Vanderbilt University, Nashville, Tennessee / / Douglas P. Hardin, Doron S. Lubinsky, Brian Z. Simanek, editors
	Pubbl/distr/stampa	Providence, Rhode Island : , : American Mathematical Society, , 2014 ©2016
	ISBN	1-4704-2534-3
	Descrizione fisica	1 online resource (ix, 297 pages : illustrations)
	Collana	Contemporary mathematics, , 1098-3627 ; ; v. 661
	Classificazione	11P2126C1031A1533C5035L6740A1541A2142C0560B20
	Disciplina	511.3/26
	Soggetti	Functions
		Approximation theory
		Mathematical analysis
		Number theory -- Additive number theory; partitions -- Lattice points in specified regions
		Real functions -- Polynomials, rational functions -- Polynomials: location of zeros
		Potential theory -- Two-dimensional theory -- Potentials and capacity, harmonic measure, extremal length
		Special functions (33-XX deals with the properties of functions as functions) -- Hypergeometric functions -- Orthogonal polynomials and functions in several variables expressible in terms of special functions in one variable
		Partial differential equations -- Hyperbolic equations and systems -- Shocks and singularities
		Sequences, series, summability -- Convergence and divergence of infinite limiting processes -- Convergence and divergence of continued fractions
		Approximations and expansions -- Approximations and expansions -- Padé approximation
		Harmonic analysis on Euclidean spaces -- Nontrigonometric harmonic analysis -- Orthogonal functions and polynomials, general theory
		Probability theory and stochastic processes -- Probability theory on algebraic and topological structures -- Random matrices (probabilistic aspects; for algebraic aspects see 15B52)
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
