Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	This title focuses on the way a number of French literary narratives written in the realist tradition show a dynamic balance between the desire of the author/narrator to present a verisimilar world and the need for aesthetic balance. While the works studied range from 1835 to 1938, they share a perspective on the relations between and the need to engage questions of realist verisimilitude and narrative interest and aesthetics.
