Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Thomistic ontology -- Ontological morality and human rights -- The war of the philosophers -- The modern way -- Pope Leo XIII and his legacy -- The survival of tradition.
Sommario/riassunto	Luis Cortest shows how traditional natural law was transformed by thinkers like Locke and Kant into a doctrine compatible with early modern notions of nature and morality. One of the first great debates about moral philosophy took place in 16th-century Spain, as a dispute concerning the humanity of Native Americans.
