ISBN	0-262-29489-3 0-262-29520-2
Descrizione fisica	1 online resource (264 p.)
Collana	American and comparative environmental policy
Classificazione	88.60
Altri autori (Persone)	StephanMark <1968-> (Mark Christopher) AbelTroy D
Disciplina	333.71/4
Soggetti	Environmental policy - United States - Decision making Environmental reporting - United States Disclosure of information - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Information disclosure and environmental performance -- How does information disclosure work? -- Reducing toxic releases and community risks -- States of green : regional variations in environmental performance -- Facility-level perspectives on the TRI and environmental performance -- Environmental leaders and laggards : explaining performance -- Conclusions and policy implications.
Sommario/riassunto	"Coming Clean is the first book to investigate the process of information disclosure as a policy strategy for environmental protection. This process, which requires that firms disclose information about their environmental performance, is part of an approach to environmental protection that eschews the conventional command-and-control regulatory apparatus, which sometimes leads government and industry to focus on meeting only minimal standards. The authors of Coming Clean examine the effectiveness of information disclosure in achieving actual improvements in corporate environmental performance by analyzing data from the federal government's Toxics Release Inventory, or TRI, and drawing on an original set of survey data from corporations and federal, state, and local officials, among other sources.

The authors find that TRI - probably the best-known example of information disclosure - has had a substantial effect over time on the environmental performance of industry. But, drawing on case studies from across the nation, they show that the improvement is not uniform: some facilities have been leaders while others have been laggards. The authors argue that information disclosure has an important role to play in environmental policy--but only as part of an integrated set of policy tools that includes conventional regulation."--Pub. desc.

2. Record Nr.	UNICAMPANIAVAN00027242
Titolo	Atlante dei tetti / Eberhard Schunck ... [et al.]
Pubbl/distr/stampa	Torino, : UTET, 1998
Titolo uniforme	Dach Atlas <in italiano>
ISBN	88-02-05369-3
Descrizione fisica	394 p. : ill. ; 30 cm
Disciplina	690.15
Soggetti	Tetti
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Trad. di Matteo Gazzola, Helke Sturmer, Giovanna Vecchio
