Eight fallacies of cost-benefit analysis -- pt. 3. Instituting regulatory rationality. That America's natural environment has been degraded and despoiled Sommario/riassunto over the past 25 years is beyond dispute. Nor has there been any shortage of reasons why-short-sighted politicians, a society built on over-consumption, and the dramatic weakening of environmental regulations. In Retaking Rationality, Richard Revesz and Michael Livermore argue convincingly that one of the least understood-and most important-causes of our failure to protect the environment has

been a misguided rejection of reason. The authors show that
