Sommario/riassunto	This volume aims to enrich the current interdisciplinary theoretical discussion of human emotions by presenting studies based on extensive linguistic data from a wide range of languages of the world. Each language-specific study gives detailed semantic descriptions of the meanings of culturally salient emotion words and expressions, offering fascinating insights into people's emotional lives in diverse cultures including Amharic, Chinese, German, Japanese, Lao, Malay,

Mbula, Polish and Russian. The book is unique in its emphasis on empirical language data, analyzed in a framework free...
