

1. Record Nr.	UNINA9910789490103321
Autore	France R. L (Robert Lawrence)
Titolo	Environmental restoration and design for recreation and ecotourism // Robert L. France
Pubbl/distr/stampa	Boca Raton, Fla. : , : CRC Press, , 2012
ISBN	0-429-06189-7 1-4398-7061-6
Descrizione fisica	1 online resource (xxiv, 242 p. ) : ill
Collana	Integrative studies in water management and land development
Classificazione	LAW034000NAT010000NAT011000
Disciplina	639.9
Soggetti	Restoration ecology Landscape design Ecotourism Outdoor recreation - Environmental aspects
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Formerly CIP.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	section 1. Brown fields and gray waters : creating public greenspace from regenerated marginal landscapes -- section 2. Recovery processes and design practices for regenerating derelict landscapes for recreation and ecotourism.
Sommario/riassunto	A wetland center in London, parks in downtown San Francisco, a wildlife sanctuary in Arcata, and a wetlands park on the outskirts of Las Vegas--what do these urban and suburban locations have in common? They are leading examples of a new restoration design approach that is squarely placed at the interface of nature and culture. This multidisciplinary paradigm bridges the gap between an ecological approach preoccupied with returning damaged landscapes to an imagined original state and a landscape design approach concerned with creating a place for people to reinhabit.Environmental Restoration and Design for Recreation and Ecotourism is the first book to provide a detailed examination of the entire process of restoring damaged or abandoned landscapes to benefit both nature and people, specifically for the purposes of recreation and ecotourism. With a focus on history, planning, methodology, design, and construction, it explores five case studies of successful regenerative landscape design projects and gives

readers an inside look at the evolution of design projects. Two of the cases offer a particularly comprehensive review of award-winning projects: the reparation of the degraded Las Vegas Wash into Clark County Wetlands Park and the transformation of the abandoned Barn Elms Reservoirs into the London Wetland Centre. Supported by extensive photographs, tables, maps, sketches, and schematics, these case studies trace how ideas are first conceived and then adopted, transformed, or even abandoned along the way. Each case study also includes a questions-and-answers discussion with designers and managers. Emphasizing the need for interdisciplinary cooperation, the book presents lessons learned from some of the most innovative projects in regenerative landscape design--
