Sommario/riassunto	This volume contains revised versions of thirteen of the papers presented at the parasession, "New Solutions to Old Problems: Issues in Romance Historical Linguistics", held as part of the 29th Linguistic Symposium on the Romance Languages (1999). These studies examine specific problems in Romance historical linguistics within the framework of new analytical approaches, many of which represent extensions into the diachronic realm of methodologies and theories originally formulated to explain aspects of synchronic phonology and syntax.
