

1. Record Nr.	UNINA9910789556203321
Autore	Cruickshank David B.
Titolo	Microwave materials for wireless applications / / David B. Cruickshank
Pubbl/distr/stampa	Boston : , : Artech House, , ©2011 [Piscataway, New Jersey] : , : IEEE Xplore, , [2011]
ISBN	1-60807-093-X
Descrizione fisica	1 online resource (244 p.)
Collana	Artech House microwave library
Disciplina	621.38133 20
Soggetti	Microwaves Wireless communication systems - Materials
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographic references and index.
Nota di contenuto	Introduction -- 1. Garnets -- 2. Spinelns -- 3. Absorbers -- 4. Plastics and Plastic Ceramic Composite Materials -- 5.
Sommario/riassunto	This practical resource offers you an in-depth, up-to-date understanding of the use of microwave magnetic materials for cutting-edge wireless applications. The book discusses device applications used in wireless infrastructure base stations, point-to-point radio links, and a range of more specialized microwave systems. You find detailed discussions on the attributes of each family of magnetic materials with respect to specific wireless applications. Moreover, the book addresses two of the hottest topics in the field today - insertion loss and intermodulation. This comprehensive reference also.
