Sommario/riassunto	Jacqueline M. Martinez's Communicative Sexualities: Queer and Feminist Theories in Practice provides an argument for the direct study of our lived-experiences of sexuality in a classroom or academic setting. It illustrates how communicology, and its methodological practice of semiotic phenomenology, allows for a sustained and rigorous study of the meaningfulness of sexual experience as it becomes manifest in the immediate, concrete and embodied realities in the lives of those taking up such a study. Extended examples from actual classroom experience are used generously throughout.
