Sommario/riassunto	"Across the West, something called multiculturalism is in crisis. Regarded as the failed experiment of liberal elites, commentators and politicians compete to denounce its corrosive legacies; parallel communities threatening social cohesion, enemies within cultivated by irresponsible cultural relativism, medieval practices subverting national 'ways of life' and universal values. This important new book challenges this familiar narrative of the rise and fall of multiculturalism by challenging the existence of a coherent era of 'multiculturalism' in the first place. The authors argue that what we are witnessing is not so much a rejection of multiculturalism as a projection of neoliberal

anxieties onto the social realities of lived multiculture. Nested in an established post-racial consensus, new forms of racism draw powerfully on liberalism and questions of 'values', and unsettle received ideas about racism and the 'far right' in Europe. In combining theory with a reading of recent controversies concerning headscarves, cartoons, minarets and burkas, Lentini and Titley trace a transnational crisis that travels and is made to travel, and where rejecting multiculturalism is central to laundering increasingly acceptable forms of racism."--Publisher's website.

Collins makes language learning fun, fast and flexible. Pick up the essentials of the German language with this easy-to-use audio introduction. Covering everything from finding your way to talking about yourself, Collins 40-minute audio can help you learn short and simple phrases quickly by just listening and repeating. Collins Gem Phrase Books are designed for ease of use, with practical, flexible phrases that can be adapted to suit the needs of the traveller. But often, it's not the question that's the problem, it's the reply. This downloadable audio file for your Audible-compatible mp3 player

(including your iPod) addresses this problem. Along with the key phrases you need to get by – simple, to-the-point and polite – the audio file gives you an idea of what the shopkeeper, the waiter, or the passer-by you ask directions from may say to you. This volume uses this unique approach to teach the reader (and listener) German quickly and effectively.
