	Note generali	First published in 1996 by Blackwell Science as The New Engineering Contract : A Commentary. Previous ed.: 2006 retitled as The NEC3 Engineering and Construction Contract : A Commentary.

1. Introduction -- 2. Changes from ECC 3 -- 3. Main options -- 4. Secondary option clauses -- 5. Contract documents -- 6. Key players -- 7. General core clauses -- 8. Obligations and responsibilities of the contractor -- 9. Time (and related matters) -- 10. Quality management -- 11. Payments -- 12. ECC 4 compensation event schemes -- 13. Listed compensation events -- 14. Notifying compensation events -- 15. Quotations for compensation events -- 16. Assessment of compensation events -- 17. Title -- 18. Liabilities and insurance -- 19. Termination -- 20. Dispute avoidance and resolution -- 21. NEC 4 engineering and construction subcontract -- 22. Legal decisions on NEC-based contracts.

The authoritative guide to the NEC4 Engineering and Construction Contract. The New Engineering Contract (NEC) is one of the leading standard forms of contract for major construction and infrastructure projects. The latest edition of the contract (NEC4) is now a suite of contracts widely used in the UK, Australia, Hong Kong, South Africa, Ireland, and New Zealand. This timely and important book provides a detailed commentary on the latest edition of the main NEC4 Engineering and Construction Contract (NEC4 ECC) form. It explains how the contract is intended to operate and examines each clause to consider its application and legal interpretation. It also draws upon the author's highly successful third edition of the book covering the previous contract. It identifies and comments on the changes between the current and previous version of the form. After a brief introduction to the new edition of the form, The NEC4 Engineering and Construction Contract offers in-depth chapters covering everything from main options and secondary option clauses to risk assurances and NEC 4 family contracts. In between, readers will learn about general core clauses, the obligations and responsibilities of the contractor, testing and defects, payments, compensation events, and much more. Covers the latest version of the NEC Engineering and Construction Contract, the leading standard form contract for major construction projects; Examines the new contract clause by clause and compares it with the previous edition; Previous editions were widely acknowledged as detailed and fair analyses of the NEC contracts; Written by a highly regarded contracts commentator, experienced arbitrator, and adjudicator. The NEC4 Engineering and Construction Contract: A Commentary is an excellent book for construction industry professionals working for clients, employers, main contractors, project managers, subcontractors, and specialist contractors.

3. Record Nr.	UNINA9910789698403321

Disciplina	617.1/028/019 629.283019
Soggetti	Automobile drivers - Psychology Automobile driving - Psychological aspects Traffic safety
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Two columns to the page.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Theories, concepts, and methods -- pt. 2. Key variables to understand in traffic psychology -- pt. 3. Key problem behaviors -- pt. 4. Vulnerable and problem road users -- pt. 5. Major countermeasures to reduce risk -- pt. 6. Interdisciplinary issues.
Sommario/riassunto	The Handbook of Traffic Psychology covers all key areas of research in this field including theory, applications, methodology and analyses, variables that affect traffic, driver problem behaviors, and countermeasures to reduce risk on roadways. Comprehensive in scope, the methodology section includes case-control studies, self-report instruments and methods, field methods and naturalistic observational techniques, instrumented vehicles and in-car recording techniques, modeling and simulation methods, in vivo methods, clinical assessment, and crash datasets and analyses.
