Sommario/riassunto

A discursive-sociological approach to the Europeanization of gender and other equality policies. Using largely unpublished empirical data covering twenty-nine European countries this book adopts a pluralistic perspective to explore the complex and often divergent gender and other equality policy outputs of Europeanization.

Sommario/riassunto

The 2012 passage of Initiative 502 in Washington state removed the prohibition on the production, distribution, and possession of marijuana for nonmedical purposes and required the state to regulate and tax a new marijuana industry. This report uses data from multiple sources to estimate the total weight of marijuana consumed in the state in 2013 to provide decisionmakers with baseline information about the size of the state's market.
