Livello bibliografico	Monografia
Note generali	Formerly CIP.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	The globalized world -- Cyberspace in the 1990s -- War trauma -- Postmemory han -- Robot rights.
Sommario/riassunto	In culture and scholarship, science-fictional worlds are perceived as unrealistic and imaginary. Seo-Young Chu challenges this perception of the genre, arguing instead that science fiction is a form of 'high-intensity realism' capable of representing non-imaginary objects that elude more traditional modes of representation.
