Psychological Themes in New Religious Movements -- 9. Gender and Diversity -- 10. Power and Authority -- 11. Postmodernism and the Development of New Religious Movements -- Glossary -- Bibliography -- Index. |
| Sommario/riassunto | "New Religious Movements: A Guide for the Perplexed examines the phenomenon of new faiths and alternative spiritualities which has become a feature of the contemporary world. Those interested in the spiritual dimension to life are no longer limited to the major world faiths, but can draw upon a rapidly-expanding range of new religions. Some of these are derived from the major religions, some are a re-working of ancient traditions, while others signify a completely new departure in spiritual experience. This book analyses the concepts we use to discuss new religions, and surveys a range of different |

movements which were established in the second half of the 20th century. Paul Oliver explores the organization of the movements, and the psychological aspects of life within them; the distribution of power and authority within movements; the position of women in relation to such organizations, and finally, the nature of the evolution and expansion of such movements in relation to post-modern society. This book is ideal for students wishing to understand the more perplexing elements of this contemporary phenomenon."--Bloomsbury Publishing. "This book analyses the concepts we use to discuss new religions, and surveys a range of different movements which were established in the second half of the 20th century"--provided by publisher."--Bloomsbury Publishing.
