Nota di contenuto	Introduction : community as an institutional order and a type of organizing / Christopher Marquis, Michael Lounsbury, Royston Greenwood -- Organizations in the shadow of communities / Siobhan O'Mahony, Karim R. Lakhani -- An initial description of the c-form / Marc-David L. Seidel, Katherine J. Stewart -- The power of 'limited liability' : transnational communities and cross-border governance / Marie-Laure Djelic, Sigrid Quack -- The dynamics of community translation : Danish health-care centres / Susanne Boch Waldorff, Royston Greenwood -- Communities, labor, and the law : the rise of corporate social responsibility in the United States / Justin I. Miller, Doug Guthrie -- Explaining the loss of community : competing logics and institutional change in the US banking industry / Christopher Marquis, Zhi Huang, Juan Almandoz -- From Nutley to Paris : how the culture of communities shapes organizational identity / Mary Ann Glynn, Daniel S. Halgin -- Community context and founding processes of banking organizations / John Freeman, Pino G. Audia -- Understanding corporate participation in local relational networks : corporate CEO membership on large locally headquartered commercial banks boards in the 1960s / Donald Palmer, Matthew Zafonte -- The embeddedness of social entrepreneurship : understanding variation across local communities / Christian Seelos, Johanna Mair, Julie Battilana, M. Tina Dacin.
Sommario/riassunto	How does organizations embeddedness in broader social and cultural communities influence their behavior?And how has this changed with recent communication technology advances and globalization trends?In this volume, we consider how diverse types of communities influence organizations, as well as the associated benefit of developing a richer accounting for community processes in organizational theory. One goal of the volume is to move beyond the focus on social proximity and networks that has characterized existing work on communities. The papers in this volume consider specific topics that expand the definition of community beyond geography to include how transnational communities form and affect organizations perception, the development of a community-form (C-form) organization as an important organizational architecture for understanding twenty-first century business, and how virtual communities influence key organizational processes. While there has been a recent revival of research into the effects of both geographic and non-geographic communities on organizational behaviors, this volume is the first effort to bring both perspectives together in order to aid in the identification of common and disparate mechanisms across multiple types of communities and how community as an organizing logic sits vis-à-vis other logics related to the market, corporation, family and religion.

3. **Record Nr.**   UNINA9910694159703321

   Titolo   Air traffic management in foreign countries : hearing before the
