Sommario/riassunto	"We are the 99%" has quickly become the slogan of our political era as growing numbers of Americans express concern about the disappearing middle class and the ever-widening gap between the super-rich and everyone else. Has America really entered a New Gilded Age? What are the political consequences of the growing income gap? Can democracy survive such vast economic inequality? These questions dominate our political moment--and Larry Bartels provides answers backed by sobering data.
