Autore	Creemers Bert P. M.
Titolo	Improving quality in education : dynamic approaches to school improvement // Bert P.M. Creemers and Leonidas Kyriakides
Pubbl/distr/stampa	London ; ; New York : , : Routledge, , 2012
ISBN	1-136-72982-8 1-283-46281-8 9786613462817 0-203-81753-2 1-136-72983-6
Descrizione fisica	1 online resource (308 p.)
Altri autori (Persone)	KyriakidesLeonidas
Disciplina	371.2/07 371.207
Soggetti	School improvement programs School management and organization
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Front Cover; Improving Quality in Education; Copyright Page; Contents; List of figures; List of tables; List of appendices; Preface; Part A: Foundations of the improvement approach; 1. Developments in school improvement: the value of a theory-driven approach; 2. Establishing links between educational- effectiveness research and school improvement: the contribution of the dynamic model; 3. The dynamic approach to school improvement; Part B: Research projects on the dynamic approach to school improvement; 4. Establishing school self-evaluation mechanisms to improve the quality of education 5. Facing and preventing bullying through improving the school learning environment 6. Schools establishing school self- evaluation mechanisms for improvement purposes: case studies of two primary schools in Slovenia; 7. Using DASI to improve teacher effectiveness: a group randomisation study; 8. Development of DASI: studies on teacher effectiveness in different educational settings; Part C: Translating the approach into action: guidelines and instruments; 9. Using DASI to establish mechanisms for school self-evaluation for improvement

purposes

10. Instruments for measuring quality of teaching and school level factors11. The design of actions and strategies for improvement, their implementation and evaluation; Part D: Further developments of the dynamic approach to school improvement; 12. Reflections on the viability of the approach; References; Appendix to Chapter 4; Appendix to Chapter 5; Appendix to Chapter 6; Appendix to Chapter 7; Appendix to Chapter 10; Index

Sommario/riassunto

This book explores an approach to school improvement that merges the traditions of educational effectiveness research and school improvement efforts. It displays how the dynamic model, which is theoretical and empirically validated, can be used in both traditions. Each chapter integrates evidence from international and national studies, showing how the knowledge-base of educational effectiveness research can be used for improvement purposes. In a clear and practicable manner it outlines: Foundations of the improvement approachResearch projects investigating

Sommario/riassunto	The application of evidence-based veterinary medicine (EBVM) can assist in improving and optimising the diagnosis, prognosis, control, treatment and ultimately the welfare of animals. It can also provide the user with a methodology for appropriate, patient orientated life-long, self-directed, learning. To practise evidence-based veterinary medicine we require a range of skills that we may not have. This book will explain what evidence-based veterinary medicine is and show how it can be applied to veterinary practice to improve the quality of care for patients and provide informed choices
