

1. Record Nr.	UNINA9910319352303321
Autore	Dowrick, David J.
Titolo	Progettazione antisismica : conseguenze dei terremoti, rischio sismico... : ad uso di ingegneri, architetti, geometri / David J. Dowrich
Pubbl/distr/stampa	Milano : Editore Ulrico Hoepli, 1982
ISBN	88-203-1264-6
Descrizione fisica	387 p. : ill. ; 24 cm
Disciplina	624.1762
Locazione	DARPU
Collocazione	RGT 2015
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia
2. Record Nr.	UNINA9910790015603321
Autore	Hostetler Mark
Titolo	The Green Leap : A Primer for Conserving Biodiversity in Subdivision Development // Mark Hostetler
Pubbl/distr/stampa	Berkeley, CA : , : University of California Press, , [2012] ©2012
ISBN	1-280-11650-1 9786613520791 0-520-95187-5
Descrizione fisica	1 online resource (213 p.)
Disciplina	307.768
Soggetti	Biodiversity conservation New towns - Environmental aspects New towns -- Environmental aspects Planned communities - Environmental aspects Planned communities -- Environmental aspects Urban ecology (Biology) Sociology & Social History Social Sciences Communities - Urban Groups

Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Frontmatter -- Contents -- Boxed Texts -- Preface and Acknowledgments -- Part One. Key Principles and Players -- Part Two. The Devil Is in the Details -- In Summary -- Notes -- Index
Sommario/riassunto	Written for anyone interested in green development-including policy makers, architects, developers, builders, and homeowners-this practical guide focuses on the central question of how to conserve biodiversity in neighborhoods and to minimize development impacts on surrounding habitats. The Green Leap specifically helps move green development beyond the design stage by thoroughly addressing construction and post-construction issues. Incorporating many real-world examples, Mark Hostetler explains key conservation concepts and techniques, with specific advice for a wide variety of stakeholders that are interested in creating and maintaining green developments. He outlines the key players and principles needed to establish biodiverse communities and illustrates eight key design and management strategies. The Green Leap not only offers essential information for constructing new developments but also helps existing communities retrofit homes, yards, and neighborhoods to better serve both people and nature.
