## Sommario/riassunto

To achieve the goal of engendering intercultural competence and intellectual development, this book proposes two strategies: structure study abroad to bridge the separation of academic learning from experiential and intercultural learning; and integrate study abroad with the undergraduate curriculum. This book opens with two chapters presenting different theoretical perspectives relevant to the integration of study abroad into the curriculum. The following nine chapters provide examples from a variety of disciplines and within such contexts as distance learning, service learning, and the senio
