

1. Record Nr.	UNINA9910451829003321
Titolo	Women and sports in the United States [[electronic resource] ] : a documentary reader / / Jean O'Reilly and Susan K. Cahn, editors
Pubbl/distr/stampa	Boston, : Northeastern University Press, c2007
ISBN	1-280-49136-1 9786613586599 1-55553-787-1
Descrizione fisica	1 online resource (409 p.)
Altri autori (Persone)	O'ReillyJean CahnSusan K
Disciplina	796.082
Soggetti	Sports for women - United States Women athletes - United States Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Pioneering women in sport -- pt. 2. Negotiating masculinity and femininity : the female athlete as oxymoron -- pt. 3. Competing bodies : physiological, biological, and psychological issues -- pt. 4. Building inequality into sport : institutionalized bias -- pt. 5. Sexuality and sport -- pt. 6. The feminine image in sports and sports media -- pt. 7. Law and equity : Title IX and its aftermath.
Sommario/riassunto	The only anthology available documenting 100 years of women in American sports

2. Record Nr.	UNINA9910456960503321
Autore	Bowles Nigel

Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references (p. [289]-294) and index.

3. Record Nr.	UNINA9910790021003321
Titolo	Plant reintroduction in a changing climate [[electronic resource] ] : promises and perils / / edited by Joyce Maschinski and Kristin E. Haskins ; foreword by Peter H. Raven
Pubbl/distr/stampa	Washington, : Island Press, c2012
ISBN	1-61091-183-0
Edizione	[1st ed. 2012.]
Descrizione fisica	1 online resource (424 p.)
Collana	The science and practice of ecological restoration
Altri autori (Persone)	MaschinskiJoyce HaskinsKristin E. <1969-> RavenPeter H
Disciplina	639.9/9
Soggetti	Plant reintroduction Plant conservation Endangered plants - Climatic factors
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"Center for Plant Conservation". Based on a symposium held in fall 2009 in Saint Louis, Missouri. "Society for Ecological Restoration"--Cover.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Review of plant reintroductions -- pt. 2. Reintroduction science and practice -- pt. 3. Managed relocation -- pt. 4. Synthesis and appendices.
Sommario/riassunto	Considered an essential conservation tool, plant reintroductions have been conducted for many of the world's rarest plant species. The expertise and knowledge gained through these efforts constitute an essential storehouse of information for conservationists faced with a rapidly changing global climate. This volume presents a comprehensive review of reintroduction projects and practices, the circumstances of their successes or failures, lessons learned, and the potential role for reintroductions in preserving species threatened by climate change. Contributors examine current plant reintroduction practices, from selecting appropriate source material and recipient sites to assessing population demography. The findings culminate in a set of Best Reintroduction Practice Guidelines, included in an appendix. These guidelines cover stages from planning and implementation to long-

term monitoring, and offer not only recommended actions but also checklists of questions to consider that are applicable to projects around the world. Traditional reintroduction practice can inform managed relocation-the deliberate movement of species outside their native range-which may be the only hope for some species to persist in a natural environment. Included in the book are discussions of the history, fears, and controversy regarding managed relocation, along with protocols for evaluating invasive risk and proposals for conducting managed relocation of rare plants. *Plant Reintroduction in a Changing Climate* is a comprehensive and accessible reference for practitioners to use in planning and executing rare plant reintroductions.
