Chan and Queeni T.Y. Ip -- Anti- ageing : health and beauty issue / Zenobia C.Y. Chan and Queeni T.Y. Ip.
Sommario/riassunto	Cosmetic surgery (CS) has become popular and common in Hong Kong, especially with the emergence of beauty salons, to which clients have easy access. However, there was found to be too little support for those undergoing and becoming addicted to CS, and whose health is affected as a result.
