Sommario/riassunto	After Dickens is both a performative reading of Dickens the novelist and an exploration of the potential for adaptive performance of the novels themselves. John Glavin conducts a historical inquiry into Dickens's relationship to the theatre and theatricality of his own time, and uncovers a much more ambivalent, often hostile, relationship than has hitherto been noticed. In this context, Dickens's novels can be seen as a form of counter-performance, one which would allow the author to perform without being seen or scrutinized. But Glavin also identifies a rich performative potential in Dickens's fiction, and describes new ways to stage that fiction in emotionally powerful, critically acute

adaptations. The book as a whole, therefore, offers a reading of Dickens through an unusual alliance between literary criticism and theatrical performance.

Records of the Press Conference on Ensuring Success in the Critical Battle against Pollution -- The Minister Meets the Press during the Two Sessions -- Records of the Press Conference on the Release of China's Policies and Actions for Addressing Climate Change (2018) -- November 26, 2018.

**Sommario/riassunto**

This book introduces readers to the press release work carried out by Ministry of Ecology and Environment of the People's Republic of China in 2018. It is divided into 3 parts, and each part is arranged in chronological order. The first part contains the records of Li Ganjie, Minister of the Ministry of Ecology and Environment, who attended the press conference of the two conferences and the "Ministerial Channel". The second part contains the record of Special Representative of China's Climate Change Affairs, Xie Zhenhua, who attended the "China's Policies and Actions on Climate Change 2018 Annual Report" press conference, and Zhao Yingmin, Deputy Minister of the Ministry of Ecology and Environment, who attended the "Three-year Action Plan to

Win the Blue Sky Defense War" policy briefing. The third part contains the records of 12 regular press conferences of the Ministry of Ecology and Environment throughout the year. .

Nota di contenuto	Foreword: on Marx's contemporary relevance -- Method -- The need for dialectics -- Dialectical logic and social phenomena -- The dialectics of individual and social phenomena -- Class-analysis and the sociology of non-equilibrium -- A dialectics of nature? -- Formal logic and dialectical logic -- Induction, deduction and verification -- Debates -- Recasting the issues -- Abstract labour as the only source of (surplus-) value -- The materiality of abstract labour -- The tendential fall in the average profit-rate (ARP) -- The transformation-'problem' -- The alien rationality of homo economicus -- Crises -- Alternative explanations -- The cyclical movement -- The subprime debacle -- Either Marx or Keynes -- Subjectivity -- Crisis-theory and the theory of knowledge -- Neither information-society nor service-society -- Individual knowledge -- Social knowledge -- Labour's knowledge -- Knowledge and value -- The general intellect -- Science, technique and alien knowledge -- Trans-epochal and trans-class knowledge -- Knowledge and transition.

## Sommario/riassunto

Much has been written since Capital was first published, and more recently after the demise of the Soviet Union and the consequent triumph of neoliberalism, about the irrelevance, inconsistency, and obsoleteness of Marx. This has been attributed to his unworkable method of inquiry. This book goes against the current. It introduces the issues that are presently most hotly debated, it evaluates them, and it groups them into four headings, each one of them corresponding to a chapter. At the same time, it submits a new reading of Marx's method of social research and on this basis it argues that Marx's work offers a solid foundation upon which to further develop a multi-faceted theory of crises highly relevant for the contemporary world.
