	Sommario/riassunto	This volume presents six alternative approaches to studying second language acquisition - 'alternative' in the sense that they contrast with and/or complement the cognitivism pervading the field. All six approaches - sociocultural, complexity theory, conversation-analytic,

identity, language socialization, and sociocognitive - are described according to the same set of six headings, allowing for direct comparison across approaches.Each chapter is authored by leading advocates for the approach described: James Lantolf for the sociocultural approach; Diane Larsen-Freeman for the comple
