Sommario/riassunto	Loren Eiseley (1907-77) is one of the most important American nature writers of the twentieth century and an admired practitioner of creative nonfiction. A native of Lincoln, Nebraska, Eiseley was a professor of anthropology and a prolific writer and poet who worked to bring an understanding of science to the general public, incorporating religion, philosophy, and science into his explorations of the human mind and the passage of time.As a writer who bridged the sciences and the humanities, Eiseley is a challenge for scholars locked into rigid disciplinary boundaries.
