

1. Record Nr.	UNINA9910790136303321
Titolo	Corrosion protection and control using nanomaterials [[electronic resource] /] / edited by Viswanathan S. Saji and Ronald Cook
Pubbl/distr/stampa	Cambridge, U.K. ; ; Philadelphia, Pa., : Woodhead Pub., 2012
ISBN	0-85709-580-3
Descrizione fisica	1 online resource (421 p.)
Collana	Woodhead Publishing in materials
Altri autori (Persone)	SajiViswanathan S CookRonald
Disciplina	620.115
Soggetti	Corrosion resistant materials Nanostructured materials - Corrosion
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Corrosion behaviour and manufacture of nanocrystalline materials -- pt. 2. The use of nanomaterials in corrosion control.
Sommario/riassunto	Corrosion is an expensive and potentially dangerous problem in many industries. The potential application of different nanostructured materials in corrosion protection, prevention and control is a subject of increasing interest. Corrosion protection and control using nanomaterials explores the potential use of nanotechnology in corrosion control. The book is divided into two parts. Part one looks at the fundamentals of corrosion behaviour and the manufacture of nanocrystalline materials. Chapters discuss the impact of nanotechnology in reducing corrosion cost, and investigate the influe
