Sommario/riassunto	From his founding of The Journal of Social History to his groundbreaking work on the history of emotions, weight, and parenting, Peter N. Stearns has pushed the boundaries of social history

to new levels, presenting new insights into how people have lived and thought through the ages. Having established the history of emotions as a major subfield of social history, Stearns and his collaborators are poised to do the same thing with the study of human behavior. This is their manifesto. American Behavioral History deals with specific uses of historical data and analysis to illuminate American beh
