Sommario/riassunto

This collection contains a selection of papers presented at the very First All-European Canadian Studies Conference that took place in The Hague, October 24-27, 1990. This unique meeting took place for the first time in the history of Canadian Studies. The focus of the papers is on the future rather than the past and it took place at a moment in time when Canada went through major crises that raised serious doubts about the country's future. The papers of this volume explore the main issues and problems that Canada faces. The volume contains sections on demography, environmental problems, econ
