Sommario/riassunto

Researchers studying gender politics in Arab societies have been puzzled by a phenomenon common in many Arab states - while women are granted suffrage rights, they are often discriminated against by the state in their private lives. This book addresses this phenomenon, maintaining that the Arab state functions according to a certain 'logic' and 'patterns' which have direct consequences on its gender policies, in both the public and private spheres. Using the features of the Arab Authoritarian state as a basis for a theoretical framework of analysis, the author draws on details
