Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references (pages 211-226) and index.
Nota di contenuto	Introduction -- Historical overview -- Government and society -- Religion -- Art and material culture -- Overseas expansion -- Epilogue.
Sommario/riassunto	The Phoenicians present a tantalizing face to the ancient historian. Latin sources suggest they once had an extensive literature of history, law, philosophy and religion; but all now is lost. Offering new insights based on recent archaeological discoveries in their heartland of modern-day Lebanon, Mark Woolmer presents a fresh appraisal of this fascinating, yet elusive, Semitic people. Discussing material culture, language and alphabet, religion (including sacred prostitution of women and boys to the goddess Astarte), funerary custom and trade and expansion into the Punic west, he explores Phoenicia in all its paradoxical complexity. Viewed in antiquity as sage scribes and intrepid mariners who pushed back the boundaries of the known world, and as skilled engineers who built monumental harbour cities like Tyre and Sidon, the Phoenicians were also considered (especially by their rivals, the Romans) to be profiteers cruelly trading in human lives. The author shows them above all to have been masters of the sea: this was

a civilization that circumnavigated Africa two thousand years before Vasco da Gama did it in 1498.

2. Record Nr.	UNINA9910790292203321
Autore	Bossan Marie-Josephe

Sommario/riassunto

Abandoning a French look on the subject, Mrs. Bossan, the author, develops her study with a dichotomous vision: that of time that touches the history of mankind and that of geography and sociology, which lead to an almost ethnographic analysis. The author dissects the shoe and all that surrounds it: from its history to painting and literature. After this book, it will be difficult to publish a book with a more complete treatment of the subject. Illustrated with an iconography that is exceptional both for its aestheticism and the pieces chosen, this book is a reference for historians, sociologi
