

1. Record Nr.	UNINA9910790329803321
Titolo	Methods for decision making in an uncertain environment [[electronic resource]] : proceedings of the XVII SIGEF Congress, Reus, Spain, 6-8 June 2012 // editors, Jaime Gil-Aluja, Antonio Terceno
Pubbl/distr/stampa	Hackensack, N.J., : World Scientific, 2012
ISBN	1-281-60374-0 9786613784438 981-4415-77-4
Descrizione fisica	1 online resource (471 p.)
Collana	World Scientific proceedings series on computer engineering and information science ; ; 6
Altri autori (Persone)	Gil AlujaJaime TercenoAntonio
Disciplina	003.56
Soggetti	Decision making - Mathematical models Fuzzy systems
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	pt. 1. Theoretical foundations -- pt. 2. Finance -- pt. 3. Economics and politics -- pt. 4. Management -- pt. 5. Neural networks -- pt. 6. Knowledge management and innovation.
Sommario/riassunto	This book contains a selection of the papers presented at the XVII SIGEF Congress. It presents fuzzy logic, neural networks and other intelligent techniques applied to economic and business problems. This book is very useful for researchers and graduate students aiming to introduce themselves to the field of quantitative techniques for overcoming uncertain environments. The contributors are experienced scholars of different countries who offer real world applications of these mathematical techniques.
