Sommario/riassunto	The book examines the phenomenon of dual nationality in the European Union, particularly against the background of the status of European citizenship – a status that is linked to the nationality of each EU Member State. While the first part sets out the approach towards (dual) nationality in Public and Private International Law as well as in EU Law, the second part consists of an overview of the dual nationality regimes in France, Italy, the Netherlands and Spain. The book shows that the autonomy of Member States in the field of nationality law is

becoming increasingly problematic for the EU, and the author takes the position that there is arguably a need for the (minimum) harmonization of European nationality laws.

Sommario/riassunto

"A practical, accessible handbook for chairing a department. Over the course of a typical academic career, most faculty will serve at least one term as chair of a department. It's a leadership and service role that's at the very heart of faculty satisfaction and student success, yet few receive any training on how to do the job. *How to Chair a Department* is a practical, accessible handbook for new and prospective chairs, providing both principles and practices for effective departmental leadership. Based on his dozen years of chairing departments, Kevin Dettmar provides invaluable advice on: * hiring tenure-track and

visiting faculty * mentoring faculty colleagues at every stage of their careers * working with staff and other departmental administrators * managing department resources and budgets * meeting the needs of students * dealing with stress and conflict * connecting the department to the larger university or college as a whole * overseeing the department's curricula * maintaining a scholarly or creative profile * preparing for career moves after chairing a department. *How to Chair a Department* demystifies this important faculty position and argues that the role of chair, though sometimes seen as a burden, can prove to be a genuine opportunity for personal and professional growth."--
