Formal and informal accountability processes; 8. Public trust in governing institutions 9. Crises, accountability, and trust in governing institutions: conclusionsNotes; Bibliography; Index
Sommario/riassunto	This book examines how efforts to exert accountability in crises affect public trust in governing institutions. Using Sweden as the case study, this book provides a framework to analyse accountability in crises and looks at how this affects trust in government.Crises test the fabric of governing institutions. Threatening core societal values, they force elected officials and public servants to make consequential decisions

under pressure and uncertainty. Public trust in governing institutions is intrinsically linked to the ability to hold decision-makers accountable for the crucial de

Sommario/riassunto	This book contains an eighteen hour seminar - given over a three day period - presented by Michael Eigen in Seoul, Korea, in 2007. The seminar traces transformations of madness and faith in psychoanalysis - particularly Freud, Klein, Bion and Winnicott - emphasizing basic rhythms of experience steeped in clinical details, social issues and personal concerns, and takes up problems of madness and faith besetting the world today. It is filled with clinical portrayals and discussions of personal and social issues. Eigen describes ways we live

through challenging experiences in therapy relevant for how life is lived. Discussions go back and forth between clinical details and cultural dilemmas, touching the taste of life, how one feels to oneself. This work is at once personal, learned, and down-to-earth. One gets the feeling that a lifetime of dedicated work is being condensed and transmitted, mind to mind, person to person, soul to soul. The reader will feel he or she is a member of an ongoing seminar alive today, this moment, carrying the work further.
